# Bicycle Friendly Arlington

Arlington County ranks among the most bike friendly jurisdictions in the nation. Through the efforts of many, Arlington County is a League of American Bicyclists Silver Level Bicycle Friendly Community (BFC) and is striving for gold status.

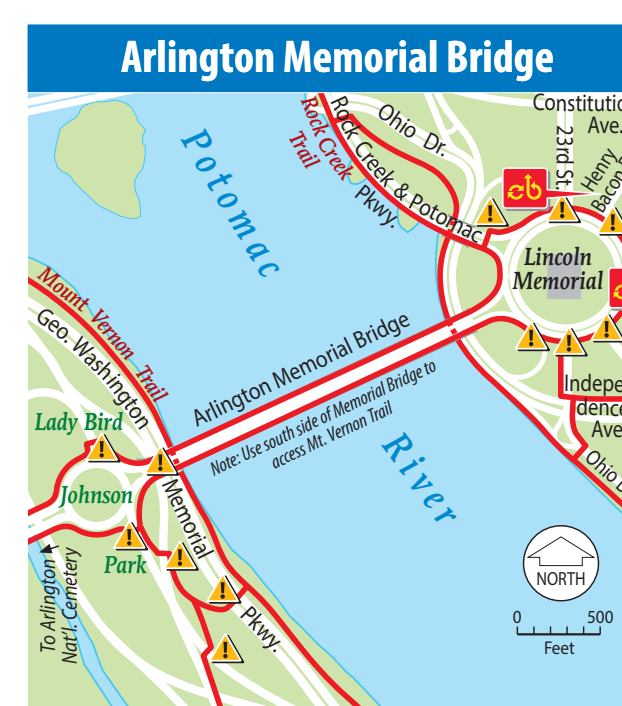

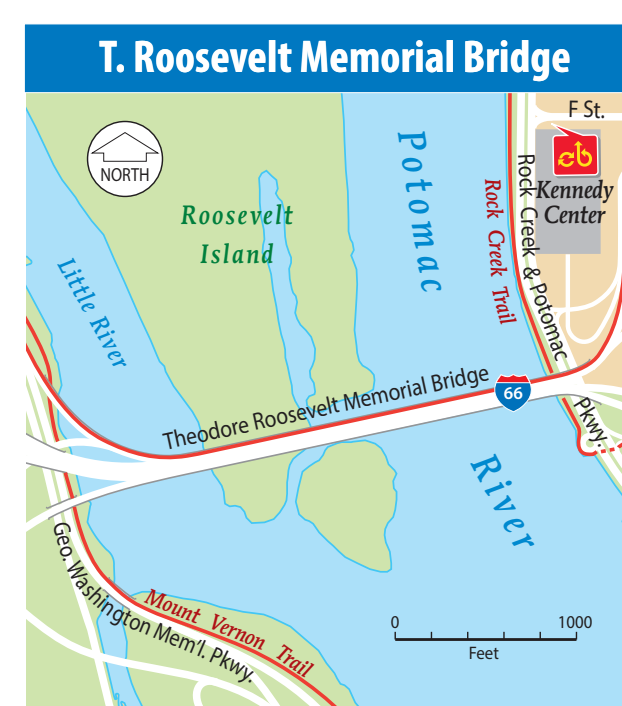

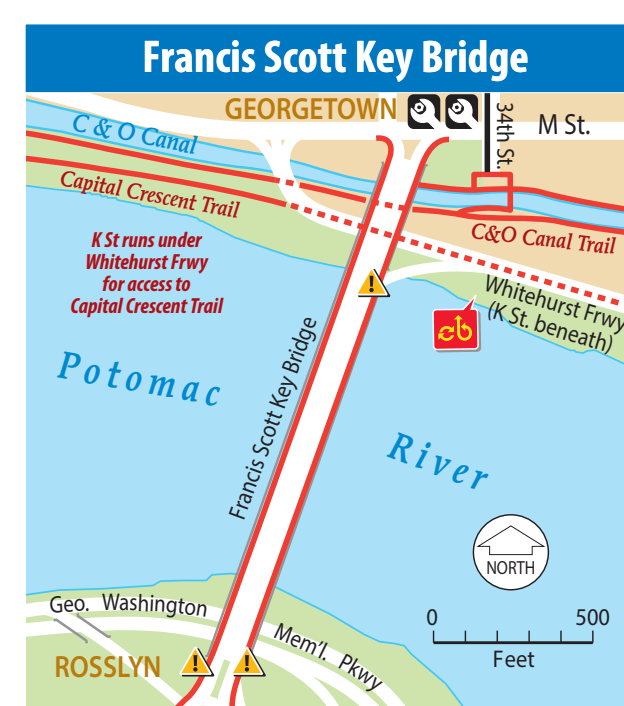

Compact in size and laced with an extensive network of bicycle infrastructure, including 50 miles of shared-use off-street trails, 40 miles of bike lanes and sharrows, and 80 miles of recommended on-street bicycle routes, it's easy to get around Arlington by bike, and many people do. This biking infrastructure complements Arlington's walkways and public transit system to provide many transportation options and make going car free a realistic option. The President of the League of American Bicyclists recently hailed Arlington as "the next Amsterdam" because of its advancing bike culture.

Arlington's bike infrastructure has benefited from years of strong support by the Arlington County Board since it first included trails in the County's

Master Plan for Transportation in 1974. The network has been nurtured by the consistent endorsement, technical advice, and encouragement of the bicycling community, the Bicycle Advisory Committee, Arlington County staff and other groups. This support resulted in a dedicated Bicycle Element to the County's Master Plan for Transportation, which was adopted in 2008.

Biking is healthy, convenient, inexpensive and green. In addition, it's good for the local economy and creates a sense of community. So slip this map into your pocket, saddle up, and enjoy going by bike in Arlington. See you on the trails and bike lanes!

**Bike Arlington**  *BikeArlington, an initiative of Arlington County Commuter Services, is an effort to build on existing partnerships between Arlington citizens, businesses, and County staff with the purpose of encouraging and enabling more people to bike more often. Visit us at [www.BikeArlington.com](http://www.BikeArlington.com).*

# Enjoy Arlington by Bike!

## PAL: Share Our Streets

As more people go on Arlington's Car-Free Diet, there are more cyclists and walkers sharing the street with drivers. Whether you're on two feet, two wheels or four wheels, everyone needs to be a PAL to safely share the streets.

Being a PAL means being:

- Predictable—travel in a predictable way; don't make sudden unexpected moves
- Alert—pay attention to your surroundings and others
- Lawful—obey traffic laws, whether in a car, on a bike, or on foot

Visit [CommuterPage.com/PAL](http://CommuterPage.com/PAL) for more information.

## More Safe Riding Tips

Bicycles offer many opportunities for recreation, exercise and personal transportation, but they must be ridden with safety in mind. Following the tips listed below will make you a safer and more confident cyclist.

- Obey all traffic signals, signs and lane markings.
- Ride on the right side of the road with the flow of traffic. Pass slower moving or stopped vehicles on their left.
- Ride far enough away from the curb to stay clear of potholes, debris and sewer grates.
- Be alert, scan the route ahead for traffic, opening car doors, pedestrians and obstacles on the road surface.

- Ride predictably so others can see you and predict your movements. Use hand signals to indicate turns.
- Make eye contact with motorists and pedestrians before crossing paths.
- Except when signaling, always keep both hands on the handlebars and be ready to brake. Use secure racks or packs for carrying items or packages.
- Go slower and use caution when the road is wet or icy, or when visibility is limited.
- Be visible; lights and reflectors are required when riding at night. Brightly colored or reflective clothing can help increase visibility.
- Avoid bicycling on sidewalks, especially in areas where motorists may not expect bicyclists or may have obstructed visibility.
- Keep your bicycle in good working condition. Also, only ride a bicycle that is sized and adjusted to fit you.

The Virginia Department of Transportation (VDOT) offers an extensive list of laws and safety tips for bicyclists, including where to ride, signaling and changing directions, and helmet use on their Laws and Safety Tips page ([virginiadot.org/programs/bk-laws.asp](http://virginiadot.org/programs/bk-laws.asp)).

## Bikes on Transit

Arlington offers many transit options, and bicycling combines well with them all. Park your bike at a Metro station or bus stop and take the bus or rail. You can even take your bike with

you on Metrorail, Metrobus, ART, and most other local bus systems. Bikes are allowed on Metrorail Monday–Friday at any time, except 7–10 am and 4–7 pm. Bikes are allowed all day on Saturday and Sunday and on most holidays. See [Wmata.com](http://Wmata.com) for more information. For more commuting information please visit: [BikeArlington.com/BikeCommuting](http://BikeArlington.com/BikeCommuting)

## Keep Your Bike Secure

The Arlington County Police Department can help you register your bicycle, report a theft and even help recover your bicycle if it is stolen. You can report an abandoned bicycle by calling 703-228-4057.

Registering your bicycle with the Arlington County Police Department (703-228-4057) is not mandatory, but strongly recommended. There is no cost for registration. For more information on keeping your bike secure, or to register online go to: [BikeArlington.com/BikeSecurity](http://BikeArlington.com/BikeSecurity)

Bike parking tips include:

- Lock your bike whenever it's not being ridden. Most stolen bikes are not locked up. Lock up even when in a garage or storage shed and lock the shed and garage doors. Always lock your bike to a solid object and double check to make sure your lock is closed.
- Choose a parking location visible to passersby. Bikes are less likely to be stolen in high visibility areas.
- For bicycles with quick-release wheels, lock both wheels and the frame to a secure structure.
- Remove easily detached items, such as packs, pumps and lights, before leaving a bicycle unattended.
- The Arlington County Police Department strongly recommends the use of a U-lock due to larcenies of bikes using chains and cables.

# HEY PAL

We're building a community driven movement to make Arlington's streets more safe—and we need your help!

## Tips for being a PAL

When you walk, drive or bike.

- 1 Don't text, or really do anything with your phone, while driving.
- 2 Communicate with your eyes, turn signals, or hand signals.
- 3 Be sure to stop at all stop signs and signals and wait your turn.
- 4 Pass people on bikes with caution and at least three feet of space.
- 5 Give people on foot the right-of-way, space, and lots of patience.

**be a PAL**  
Predictable | Alert | Lawful

## On Street: Safe Cycling on the Road

Share the road and share the responsibility for making your bike trip a safe one. Cyclists, motorists, and pedestrians get along better when they show courtesy and consideration.

### Use appropriate hand signals

- Tell motorists, cyclists and pedestrians what you intend to do. Be predictable.

### Be alert, scan the road

- Always know your surroundings.

### Be careful at intersections

- Use caution since most collisions occur at intersections. Watch for turning vehicles.

### Ride in a straight line

- Do not dodge between parked cars.

### Beware of car doors — they can open at any time

- Ride at least 5 feet away from parked vehicles.

### Ride in the appropriate position and lane

- Do not ride in a right turn only lane if you are going straight.
- Move into the appropriate lane early.
- In narrow lanes or slow traffic, it may be safer to take the whole lane.

### Follow all traffic laws

- Bikes are required to obey all regulatory signs and traffic lights.

### Lights for your bike

- Use lights when riding in low visibility conditions, including darkness. At least one front white light and one rear red flashing light.

### Wear a helmet

- Helmets dramatically reduce the risk of head injury in a bicycle crash.

## Off Street: Share the Trail

Share the trail and share the responsibilities. Those who use the trail get along better when they show courtesy and consideration.

### Control your speed

- Slow down when the trail is busy, potentially slippery, or if sight lines are obstructed.

### Be visible

- Wear bright or light colored clothing with reflective material or straps.
- Use lights when riding in low visibility conditions, including darkness. At least one front white light and one rear red flashing light.

### Signal when passing

- Warn pedestrians at least 2-3 seconds before passing them. Bells are best. Use verbal warnings only when necessary.
- Those being passed can acknowledge with a wave.

### Cell phone and headphone dangers

- Keep the trails safe and communication with other trail users clear by avoiding using cell phones and keeping one ear clear when using earphones.

### Keep to the right

- All trail users should keep to the right except when passing.
- Move off to the right of the trail when stopping.

### Be alert

- Be alert to trail conditions.
- Watch for slippery surfaces such as bridges, wet sections, ice and gravel.
- Watch for debris in the trail.
- Ring bell for others where visibility is restricted.

### Two Wheels or Two Feet: Sharing the Way

Arlington's multi-use trails are shared and enjoyed by bicyclists, pedestrians, runners, skaters, cross-country skiers, dog walkers, baby strollers, persons in wheelchairs and others. Use courtesy and common sense to avoid collisions — especially when the trails are most crowded. For more information on proper trail use, please visit [BikeArlington.com/SharingTheWay](http://BikeArlington.com/SharingTheWay).

## Going Places on the Arlington Loop

This "Arlington Loop" connects you to almost every amenity in Arlington. The entire Loop is 16 miles long, but you don't have to ride it all at once—most trips on the Loop are much shorter.

Arlington has 50 miles of off-street trails that make getting to where you need to go by bike incredibly easy. There are 4 trails in particular that create a sort of loop around the center of Arlington: the Mount Vernon, Custis, W&OD and Four Mile Run trails.

## Bicycle Education Classes

To promote safe and fun riding, Arlington County and the Washington Area Bicyclist Association (WABA) offer classes to educate you on the skills you need to incorporate bicycling into your daily routine. Classes range from the basic "Learn to Ride" class for adults who never learned to ride a bicycle to the urban road riding class for people looking for on-bike safety instruction. Visit [BikeArlington.com/Education](http://BikeArlington.com/Education) and [Waba.org/Education](http://Waba.org/Education) for the full schedule of classes in Arlington and around the region.

### FREE Group Seminars and Presentations

If you're interested in getting your colleagues, friends, family, students, classmates or others together to learn how to make the best of Arlington's plentiful bicycle facilities, whether it's by riding to work or to the grocery store, then we've got just the thing for you! We offer free group seminars and presentations that cover riding tips, route selection, bicycle choice, dealing with cargo and clothing, bike parking, lighting and more! To schedule a seminar or presentation, contact us at [info@bikearlington.com](mailto:info@bikearlington.com).
